

Voici les planches à imprimer pour le flip book. Les enfants pourront les colorier (de préférence aux crayons de couleur pour ne pas déformer le papier et donc garder sa capacité à «flipper» rapidement...). Il est bien sûr essentiel de colorier toutes les pages de la même façon.

La découpe se fait selon les pointillés. Une fois découpées les planches sont superposées de manière très précise, en positionnant l'angle droit des dessins les uns sur les autres. La marge à gauche de 4 cm sert à placer une pince à papier qui aidera l'enfant à tenir fermement le livret.

Fournitures :

1. L'épaisseur de papier idéale est de 120gr d'un format A4 (on trouve des ramettes chez Clairefontaine, par exemple). La pince à papier se trouve dans les papeteries ou les magasins de fournitures de bureau.
2. Des crayons de couleurs
3. Des ciseaux
4. Une pince à papier
